Summer's heating up and so is your Sidecar Health experience

New upgrades to make finding care faster and more personalized

Check out what's new:

- More specialty matches. We've expanded our provider specialty categories, so your care search results are more tailored to your needs.
- Easy bookmarking. You can now bookmark your favorite providers straight from the doctor search and provider list.
- Smarter, cleaner provider lists. The provider list on care detail pages now puts your bookmarked providers first, followed by results sorted by price and GAM quality, making it easier for you to select care.
